FACT:

Your roof can represent up to 40% of your home's "curb appeal."

Now, you can improve its looks and even its resale value with Timberline® American Harvest® Shingles from GAF. Designed to complement your home's exterior color scheme, the American Harvest® Collection will give you that modern architectural style you want, at a price you can afford! Its custom color palette, designed exclusively for GAF by color industry expert Patricia Verlodt, has been enhanced for maximum appeal — adding even greater dimensionality and beauty to your roof with higher contrast and on-trend colors.

But it's more than just a great-looking shingle. Professional installers have long preferred the rugged, dependable performance that only a Timberline® roof can offer. Add to that the Women's Choice Award® and the Good Housekeeping Seal*, and it's no wonder why GAF Timberline® Shingles with **Advanced Protection® Shingle Technology** are the #1-selling shingles in all of North America.

*Timberline® American Harvest® Shingles have earned the prestigious Good Housekeeping Seal, which means that Good Housekeeping stands behind this product. (Refer to Good Housekeeping Magazine for its consumer protection policy. Applicable in U.S. only.)

T

he warm browns in Saddlewood Ranch are the perfect companion to beige, a best-selling color in siding and exterior paint. This house presents a cheerful face with cream, brown, and an accent of terra cotta playing off the tones of the roof. Saddlewood Ranch also looks very stylish when paired with other earth tones and reds.

Nantucket Morning

"Colors From
The Heartland
Of America"

N

nantucket Morning has cool gray tones that are highly popular in many parts of the country. While this blend makes a perfect companion to the blues and grays seen today in siding and exterior paint, it also coordinates effortlessly with a warm, yellow-based brick, as well as with many of the popular beiges and browns found in other exterior products.

Golden Harvest

"Colors From
The Heartland
Of America"

T

he warm golden tone of **Golden Harvest** is reminiscent of cedar shakes. Enhanced by the incorporation of light blue, tangerine, and chocolate hues, this shingle presents a striking color that provides warmth and class to almost any siding or brick. This blend has the most contrast in the collection, for those who prefer a light yet colorful roof.

C

edar Falls has a clay-colored background, which is the most popular color in siding and paint today. The addition of subtle brown and gray highlights in this shingle gives any home that has beige, brown, or gray siding a more refined and polished look. Cedar Falls also works as a wonderful complement to stone, as shown on this house.

COLOR & STYLE ADVICE FROM THE EXPERTS

Patricia Verlodt & Emily Videtto

Color & style go hand in hand when considering what shingle to use on your roof.

The color and style of your shingle are important! After all, your roof represents up to 40% of your home's curb appeal, so it will always have a big impact on your home's overall look.

When you look at home exterior color trends, you'll notice that they're typically much more muted than the color trends you see in fashion; for example, if bold greens are in the fashion magazines, you might see the introduction of new home exterior palettes in warm, earthy green tones. Why? Because bold green might not be “in” two years from now (likely not), but you will still have the same roof. Color choices in exteriors are long-term decisions, so make sure the palette that you select is not only one that fits your personality and taste today but also one that you'll enjoy ten years down the road.

- Observe how much of your roof is visible from the street or common view. A larger roof looks best in neutral tones. If the roof angle is normal or slight, you can use more colorful shingles or interesting patterns.
- Use colors in the same color family as the body of your house for a simple, non-accented combination. An example is a gray roof on a gray house, whether light or dark gray. Trim in white or black will keep it understated.

- Use bright colors to make a design statement. For example, a green roof on a red brick house or a red roof on a gray house.
- And remember, follow your instinct. Choose the color and style that make you comfortable. After all, you're the one looking at it every time you come home!

When it comes to the style of your shingle, it's important to think about the overall look and shape of your home. If your roof has a low pitch, the shingle profile will be more important than the shape; for a roof with a steep pitch, a unique design or color pattern may be more important. If you have a large roof surface, you don't want the color pattern of your shingle to be too busy (it can be overwhelming!). On the other hand, a larger surface gives you a great opportunity to really change your home's look. So, make sure the design and color you select integrate extremely well with the rest of your house.

- Choose a shingle that complements your home's architectural style. For example, for a Colonial home, select a shingle with a clean line that complements the home's design. A Victorian house could take on a more colorful or complex design.
- The use of colors and textures can create a comfortable feel for your residence. For example, if focusing on the exterior of a Shingle Style home, adding color and textured design elements make the home much more approachable.

Patricia Verlodt has been responsible for coloring products for many Fortune 500 companies; she has a specialty in exterior products. Her work has been featured in major newspapers as well as in many magazines such as *Real Simple*, *Better Homes and Gardens*, and *Forbes*.

Emily Videtto is a highly respected and sought-after product and design expert with over a decade of experience in the building materials industry. She is also Vice President, Shingles and New Product Development at GAF. Emily has been seen on *HGTV's Curb Appeal*, *The Balancing Act*, *Niki Taylor's Having it All*, and *Orange County Choppers*.

†In the North, most building codes require the use of Leak Barrier at the eaves.

Cobra® Attic Ventilation

Helps remove excess heat and moisture from your attic to promote energy efficiency in your home and help extend the life of your roof.

Roof Deck Protection

Provides an exceptionally strong layer of protection against wind-driven rain; some even allow moisture to escape from your attic. Also, lies flatter for a better-looking roof.

Leak Barrier

Provides exceptional protection against leaks caused by roof settling and extreme weather. Ideal upgrade at all vulnerable areas (including at the eaves in the North!).

Starter Strip Shingles

Saves time, eliminates waste, and reduces the risk of blow-off...and may even help qualify for upgraded wind warranty coverage (see *GAF Shingle & Accessory Ltd. Warranty* for details).

Ridge Cap Shingles

Enhances the beauty of your home while guarding against leaks at the hips and ridges.

*See *GAF Shingle & Accessory Ltd. Warranty* for complete coverage and restrictions. The word "Lifetime" refers to the length of coverage provided by the *GAF Shingle & Accessory Ltd. Warranty* and means as long as the original individual owner(s) of a single-family detached residence (or the second owner(s) in certain circumstances) owns the property where the shingles and accessories are installed. For owners/structures not meeting the above criteria, Lifetime coverage is not applicable. Lifetime Ltd. Warranty on accessories requires the use of at least three qualifying GAF accessories and the use of Lifetime Shingles.
